## EXPERIENCE

### RareCircles

Fullstack Developer II

October 2022 – Present

Toronto, ON

- Designed and built a high-performance SAAS product using React.js, Typescript, Next.js, GraphQL, and CSS, serving over 2,000 users within weeks while ensuring streamlined updates
- Collaborated effectively in Agile teams of 4-7 members, contributing to iterative development cycles, making architectural decisions, and mentoring fellow colleagues to optimize project outcomes.
- Developed automated testing (unit, integration, and acceptance) for UI components using Cypress within our CI/CD pipeline, resulting in a 100% increase in application efficiency and reliability
- Maintained clear and comprehensive documentation, facilitating a smooth workflow with graphic designers, product owners, and cross-functional teams, streamlining developer onboarding process by 75%
- Innovated and implemented UX solutions and crafted engaging UI animations using Framer Motion and GSAP, resulting in a 20% increase in user retention and platform experience
- Supported in the development and maintenance of backend APIs using Golang, Nodejs and PostgreSQL to improve system performance and functionality, alleviating workload on backend engineers

### 100Devs

Junior Web Developer

February 2022 – October 2022

Toronto, ON

- Designed and developed an e-commerce and static web pages for small businesses, leveraging proficiency in HTML, CSS, JavaScript, React, Nodejs, Express and MondoDB, fully increasing their web presence by 100%
- Engineered RESTful APIs, implemented JSON Web Tokens, and created CMS platforms for diverse clients, with an average time saved of 5 hours per week and increased website traffic by 30%

### Gensler

Architectural Designer

September 2018 – October 2022

Toronto, ON

- Interior and exterior design, visualization, diagram, and graphic design, and teaching modeling/scripting software to junior colleagues in new ways to increase productivity by 30%

---
