EXPERIENCE

Software Developer II

Oct, 2021 - Present

RareCircles, www.rarecircles.com, Toronto, ON

- Spearheaded Frontend Development for Enterprise Shift: Main developer responsible in RareCircles' transition from membership platform to a comprehensive employee portal and bi-directional customer SMS system. Built the entire frontend from the ground up, including design libraries, error handling, reusable components, and animations (Next.js, React Native Expo monorepo), following WCAG, AODA, and WAI-ARIA standards.
- Full-Stack Ownership and Collaboration: Owned the frontend development lifecycle, collaborating effectively with backend developers to integrate seamlessly and contribute to API enhancements. Mentored colleagues and fostered a collaborative environment.
- Performance-Driven Frontend with Automated Testing: Championed a performant and user-centric frontend using TypeScript. Implemented comprehensive unit tests for UI components (Cypress) within the CI/CD pipeline, leading to a 30% reduction in production bugs and ensuring application stability.
- UX Champion and Animation Master: Designed and implemented UX solutions to enhance user experience, resulting in a 20% increase in user retention. Crafted engaging UI animations using Framer Motion and GSAP to elevate the platform's interactivity.

Freelance Developer

Dec 2022 - On-going

Muroto, www.muroto.dev, Toronto, ON

- Full-stack web developer collaborating with a small team to deliver custom websites for diverse clients.
- Proficient in developing a wide range of sites, ranging from informational, events, e-commerce and loyalty/rewards programs.
- Experienced in all stages of the project lifecycle, from client consultation to ongoing maintenance.

Architectural Designer

Sept 2018 - Oct 2021

Gensler, Toronto, ON

- Interior and exterior design of buildings, visualization, diagram, and graphic design, and teaching modeling/scripting software to junior colleagues in new ways to increase productivity.
